STAT

STAT The Configuration Management Plan was published on 16 December. [redacted]

B. Support to OP:

PERHOSP (Personnel Hospitalization Insurance System) This week was spent resolving differences between the old and new insurance systems. The new system has proven to be correct so far, and any differences have been attributed to human errors. The first Hospital Master file created out of the new system, to be processed in pay period 1, has been processed successfully in the PAYROLL system. The first group of insurance transactions created out of the new system has been processed successfully as payroll transactions in the PAYROLL system. This completes the interface from PERINSUR to PAYROLL and next week we will receive transactions from PAYROLL to PERINSUR which will conclude the interface both ways. [redacted]
